

KRISH YADAV

Full-Stack Developer | B.Tech CSE Student | React, Node.js, Django, MongoDB

Bhopal, India | +91 9039208734 | krish39yadav@gmail.com | github.com/krishAI04 | linkedin.com/in/krish-yadav-65a519277

PROFILE

B.Tech CSE student who builds practical full-stack products across React, Node.js, Django, MongoDB, and SQLite. Comfortable picking up new technologies quickly, owning features end to end, and turning ambiguous ideas into working demos. Also brings client-facing experience from freelance social-media/content operations, useful for product teams building for agencies and creator workflows.

SKILLS

Languages: JavaScript, HTML, CSS, Python | **Frontend:** React, Tailwind CSS, Django Templates, Expo React Native | **Backend:** Node.js, Express.js, Django, REST APIs | **Databases:** MongoDB, MySQL, SQLite | **Tools/APIs:** GitHub, Postman, OSRM, Nominatim, OpenStreetMap, Mapbox GL | **Languages Spoken:** English, Hindi

PROJECTS

Shecure - Safe Route Generation for Women | Hackathon Winner

React, Node.js, Express.js, MongoDB, REST APIs, OSRM, Nominatim, OpenStreetMap

- Built a safety-focused route planner that ranks route alternatives using custom weighted safety scoring and highlights risky stretches on the map.
- Implemented full-stack flows for route search, feedback, complaints, SOS reporting, authentication, and MongoDB-backed safety reports.

Smart Grievance System | Hackathon Project

Django, React, MongoDB, REST APIs

- Developed backend and frontend integration for a grievance platform with complaint submission, tracking workflows, and database-backed records.
- Collaborated with a teammate who handled the AI model while owning the web application layer and API integration around the model output.

AQI Route | Route Planning App

Django, HTML, JavaScript, Tailwind CSS, Expo React Native

- Created an AQI-aware route planner with APIs for place search, route alternatives, and shortest / best AQI / second-best AQI comparisons.
- Built a mobile demo in Expo using live location and map-based point picking to test navigation flows from the Django backend.

Assetra | Solo Full-Stack Project

Django, Django Templates, SQLite

- Owned the project end to end, covering backend logic, template-based frontend, database design, and core product workflows.

The Deven - Client Blog App

MongoDB, Express.js, React, Node.js

- Built a MERN blog application for a client, strengthening practical Node.js, MongoDB, and client delivery experience.

FREELANCE EXPERIENCE

Freelance Content Creator / YouTube Production Agency - Upwork | Remote

- Maintained a 94% Job Success score across 61 Upwork jobs while coordinating YouTube content operations, scriptwriting, production support, and client communication.
- Worked with social-media workflows and agency-style delivery, building useful context for products serving creator and branded-campaign teams.

EDUCATION & ACHIEVEMENTS

B.Tech CSE, Jagran Lakecity University, Bhopal | 2nd Year, 4th Semester

- Won college hackathon with Shecure, a women-safety route generation project.
- Participated in BIST College Bhopal hackathon with Smart Grievance System.
