PROJECTS

Shecure — Safe Route Generation for Women

■ Hackathon Winner

React · Node.js · Express.js · MongoDB · REST APIs · OSRM · Nominatim · OpenStreetMap

- Built a safety-focused route planner ranking alternatives via custom weighted safety scoring with risky-stretch map highlighting.
- Implemented full-stack flows: route search, feedback, complaints, SOS reporting, authentication, and MongoDB-backed safety reports.

Smart Grievance System

Hackathon Project

Django · React · MongoDB · REST APIs

- Developed backend and frontend for a grievance platform with complaint submission, tracking workflows, and DB-backed records.
- Owned the web application layer and API integration around a teammate's AI model output.

AQI Route — Route Planning App

Django · HTML · JavaScript · Tailwind CSS · Expo React Native

- Created an AQI-aware route planner with shortest / best-AQI / second-best-AQI comparisons via clean REST APIs.
- Built a mobile demo in Expo using live location and map-based point picking to test Django backend navigation flows.

Assetra — Solo Full-Stack Project

Django · Django Templates · SQLite

- Owned the project end to end: backend logic, template-based frontend, database design, and core product workflows.

The Deven — Client Blog App

MongoDB · Express.js · React · Node.js (MERN)

- Built a MERN blog application for a client, strengthening practical Node.js, MongoDB, and client delivery skills.

FREELANCE EXPERIENCE

Freelance Content Creator / YouTube Production Agency — Upwork

Remote

- Maintained a **94% Job Success score** across 61 Upwork jobs coordinating YouTube content operations, scriptwriting, production support, and client communication.
- Worked with social-media and agency-style workflows, building useful context for products serving creator and branded-campaign teams.

EDUCATION & ACHIEVEMENTS
